

AT A GLANCE

年度概覽

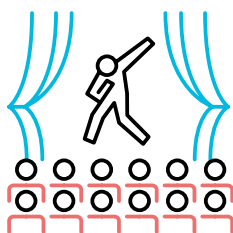

In 2020/21, the District's performing arts venues and facilities were closed for 174 days due to the COVID-19 pandemic. Despite cancellation and repeated rescheduling of many planned programmes and activities, the WKCDA team had made every effort to sustain the promotion of arts and culture via different formats, such as organising online exhibitions, talks and a variety of programmes and performances for different audiences, or resuming physical live shows on-site whenever the pandemic situation allows. During the reporting year, the construction progress of the West Kowloon project went well. The below quick facts underscore the Authority's commitment to creating a sustainable and vibrant arts and cultural quarter for Hong Kong people during the reporting year.
